March 27, 2009

Dear Mr. Albert Baldeo:

It has been said, "It takes a village". As the Principal of the school I recognize that both the school and the community must align their efforts if we are to mold children into future contributing members of society. It is for this reason that an event such as Career Day is so important.

Thank you for taking the time to volunteer your time at our first Career Day celebration. Your contribution to the event has contributed to its success. Our students learned about your work experiences, perhaps inspiring them to follow in your footsteps. When the children feel the support of the parents, school and the community, they are better prepared to make wise choices in the future.

Thank you again and I hope that you will join us next year for an event that will surely become a tradition at PS 161Q.

Sincerely,

Jill Hoder  
Principal
